SKILLS

- Financial Modeling, Valuation & Fundamental/Technical Analysis — Digital Assets & Equities
- Investment Research, Thesis Development, Report Writing & Financial Education
- Portfolio Management, Risk Analysis, Asset Allocation & Position Sizing
- AI-Assisted Web Development, Prompt Engineering & Trading Tool Design

EDUCATION

Bryant University | B.S. Business Administration, Finance — May 2022

PROFESSIONAL EXPERIENCE

OnlySnipes | Founder, Trader & Educator — Feb 2023 - Present

- Founded and raised capital for an independent digital-asset trading and research community, featuring portfolio allocation, live market analysis, and trade ideas with a focus on educational content.
- Recruit and manage analysts who publish actionable trade ideas, technical research, and market commentary for members, helping the community progress towards profitable trading.

Potion Alpha | CEO — May 2026 - Nov 2026

- Led post-acquisition strategy and operating execution, including executive-team restructuring, growth priorities, and long-term planning to reposition the brand.
- Directed execution across customer acquisition, social media campaigns, sales webinars, along with exchange and product partnerships.
- Built and managed a team of research analysts who produced our newsletter; oversaw client experience and delivered weekly market coverage to an audience that includes 64,000 followers on X.

Weekly Wizdom Financial Newsletter | Technical Analyst & Writer — Aug 2022 - Jul 2026

- Produced weekly cross-asset market research, featuring individual trade ideas, for a financial newsletter serving more than 2,000 paid subscribers.
- Developed valuation-driven investment theses highlighting upside in ZEC (+590%) and LIT (+373% YTD) and downside risk in KAITO and LINK; presented findings and tracked performance through weekly livestreams.

Bryant University Archway Investment Fund | Portfolio Manager — Aug 2021 - May 2022

- Conducted equity research and financial modeling on energy, materials, and utilities for the $2.4 million student-managed fund; developed investment theses, trade recommendations, and portfolio positioning that contributed to relative sector outperformance.

ADDITIONAL EXPERIENCE

Lute | Early Investor and Product Advisor — Jul 2025 - Present

- Advise an early-stage trading technology company on investor positioning, competitive differentiation, go-to-market priorities, and operating workflows.
- Lead recurring product evaluation across desktop and mobile, assessing feature execution, usability, defects, and roadmap improvements.

Pocket Pro | Product Development Consultant — Jun 2024 - Aug 2025

- Led end-to-end product testing and quality assurance across a trading application, Telegram bot, and dYdX-integrated platform.
- Advised leadership through scale-up and acquisition, strengthening product readiness and credibility ahead of acquisition by the dYdX ecosystem.

UBS Financial Services - Hingham Street Partners | Intern — Dec 2019 - Feb 2020

- Analyzed UBS business lines and presented an equity research case on Tesla; supported portfolio managers and advisors with work on institutional investing, foreign exchange, and hyperinflation.
